dedication....

Many people contribute to the making of graduates. You certainly are foremost among them, guiding the development of such students.

Since 1955, you have helped students in arts and crafts courses. With artistic skills, you teach them to shoulder responsibility, to work in cooperation with faculty members and other students, and to accept setbacks with grace.

However, you help to the students is not limited to the classroom. Many seek your advice and sympathy. Your genuine concern deeply touches those whom you counsel.

The **Pathfinder** staff certainly could not succeed without your assistance. Your guidance, patience, and understanding makes you invaluable as our faculty advisor. Together we achieve our purpose: the publication of the **Pathfinder.**

You serve Fremont as an expert teacher, as a dependable advisor, and, most important, as the friend of the students. All of these qualities make you a very essential part of Fremont. Mrs. Caladora Brown, we proudly dedicate the 1963 **Pathfinder** to you.

district administration

Once again the Fremont High student body has proved helpful when we have had to use the Fremont campus for a new District high school. I wish to commend Fremont students for their cooperative role in playing host to Homestead High School, whose August, 1962, completion date was upset by a prolonged construction strike and its after-effects.

That you have shared your campus ungrudgingly is to your credit and indicates your own progress to adulthood. Through your aid it has been possible to provide good educational opportunties to both student bodies on the same campus.

fremont administration

Mr. Adams,
Vice-Principal

"The whole is equal to the sum of its part and is greater than any one of them." You have chosen this quotation, in connection with the activities theme of your 1963 yearbook, which represents a truism worth serious consideration by all of us. Through serious dedication by the multitude to our stated American goals will home, community and country, and yes, even the world, be a more meaningful, more fruitful, and happier home for man.

To you seniors — graduation marks the beginning and not the end of learning, and thus, one of your major goals in school has been in learning how to learn. You have been thoroughly exposed to the 3 R's, and beyond this you all need to learn, but not necessarily the same things. May your separate paths be long and noteworthy. You have been a fine group to work with and are deserving of the best.

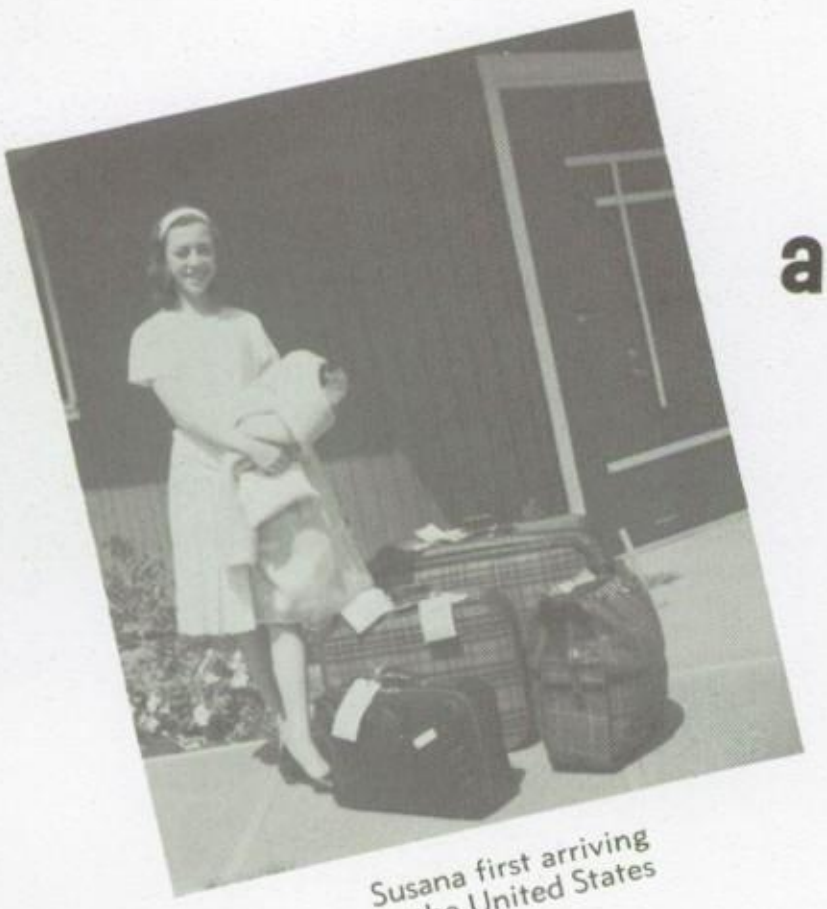
Dear Student Body,

This year at Fremont has been full of excitement and new experiences. I'll never forget all the different things I've learned here in California and the good time I've spent at school.

I'm really fortunate to meet such wonderful people as you are. Thank you for making all this possible.

Sincerely,
SUSANA BORNEO
Foreign Exchange Student from Brazil



Susana first arriving in the United States

american field service

Susana, with her United States "sister," Cindy Porter

Dear Student Body,

I have learned many valuable ideas from attending several discussions. I learned that the countries and people participating in the foreign exchange program are strikingly varied, yet one may break any difference by simply being friendly. As the finalist from this high school, although I was not placed in a home, I was proud to have taken part in the foreign exchange program.

Sincerely,
SUZANNE MEEK
Exchange Finalist from Fremont
